I have a fascinating story to share with you.

If you're interested in boosting your confidence with women, then you'll find this story EXTREMELY valuable...

Here goes...

There once was a nice, smart guy who fell in love with an amazing woman.

He couldn't believe how lucky he was to find this one special person in his life.

After they dated for 2 blissful years, he took her on a trip to the south of France... and proposed to her.

To his relief, she said yes.

They were both so very happy.

Over the next year, they began to plan their future together... including their wedding.

At the time, he was in medical school and he felt guilty for leaving her alone so much while he studied.

He told her:

"Honey, I want you to go out and meet some people. It's not right that you stay home at night just because I'm studying to become a doctor."

Well, she took his advice... and went out.

And one night, she STAYED OUT...

...all night...

...with an NFL quarterback, no less.

When our friend found out what happened, he was DEVASTATED.

As you could imagine, this experience literally turned his world upside down

But eventually he picked himself up...

... and when he did, he made a pledge to himself...

He would do WHATEVER it took to figure out the "inner game" of attraction, so that he could become the kind of guy who could attract and keep a high quality woman in a relationship, for as long as he wanted... so he'd never have to go through this pain again.

....

OK, now, the shocking thing about the story above - is that it's NOT a "story."

It actually happened.

And the man it happened to is a very good friend of mine... named Dr. Paul.

He's a world-renowned psychiatrist (not to mention author, actor, model, and all around cool guy)...

He literally is one of the most brilliant minds I've ever met... and his knowledge of the human mind is so deep that I had him help create and present live on stage my Deep Inner Game program.

If you're curious about getting your inner game "handled" and developing rock-solid confidence with women, I have some great news...

This month's Interviews With Dating Gurus... is with Dr. Paul himself.

If you'd like to learn how to get in touch with that masculine core inside of you - the core that can attract women EFFORTLESSLY - then you really need to check out this interview.

One of the things he shared is his definition of POWER.

He says that part of Power is "positive emotional energy," which has two parts:

- 1) Confidence
- 2) Well-being

He went on to say that you get more confidence by transforming anxiety into courage. Or in other words, by doing what you fear, over and over...

And you get more well-being by transforming

your anger into assertively getting your needs met.

When you do those two things over and over - do what you fear, and assertively go out and get your needs met, you build your confidence and well-being... which builds your "positive emotional energy"... which makes you DAMN attractive to women.

Here are just a few more of the secrets he shared:

- How to get rock-solid confidence with women (even if you tend to be a "shy" kind of guy)

- How to take the pressure off yourself when you meet a new woman (so you come across as "cool and collected")

- How to develop an Island of Resilience - so that no woman can throw you off your game or make you too nervous

- How to tell a woman's "personality type" the instant you meet her - and how to tweak your communication to fit her type so she feels magnetically drawn to you.

- Why your future with a woman is made or destroyed in the first 3 seconds you meet a woman (and how to use those first few seconds to maximize your chances of success)

- A critical lesson from Improv Comedy you can use to create a strong connection with any woman you meet

- How to let the wuss inside you die - and how to make "friends" with the shadow inside yourself - so you can unleash your ability to attract women... and boost the confidence you enjoy in EVERY part of your life

- How to have "mature boundaries" with women (and why telling women "no" will EXPLODE your success in dating and life...)

- The 4 different masculine archetypes - the King, Warrior, Magician, and Lover - and how to figure out which one YOU are (so you can unlock your personal power)...

- and MUCH more...

I'm going to release this interview as this month's edition of my "Interviews With Dating Gurus" Monthly CD Audio Program.

If you know that your Inner Game could use some "tuning up"... and you want to get an in-depth education on exactly how to do it, then you should also check out my "Deep Inner Game" program.

It's all about the psychology of overcoming your inner limitations, fixing "belief-level" problems, and developing a rock-solid self image and high self-esteem. so you can confidently meet and attract women.

It's the only program of its type. because it takes the scientific breakthroughs from the field of psychology, and applies them to this SPECIFIC challenge of becoming more successful with women and dating.

And as I said, Dr. Paul and I co-created this program - and his wisdom takes this program to the NEXT LEVEL.

Here are just a few of the specific you'll learn in the program:

- How to patch up the holes in your self-esteem FOR GOOD and build a rock-solid foundation of confidence that all women "feel" when they're around you
- Why human nature can actually PREVENT you from having success with women. and what you absolutely must do to overcome your "bad programming" and start living the life you were born to live
- A 2-step exercise to identifying exactly how you are letting women control your actions so you can eliminate their influence and be YOUR OWN person (Which in turn will cause you to attract women like crazy)
- Do you ever feel like you are just too "nice"

or sensitive, or have a hard time saying "no"?
Here's a simple technique you can use when you FEEL this happening to clear your head and make the right choice

- A simple change in your attitude that will prevent a woman from ever trying to take control of your life

- Do you find that the women you are REALLY interested in seem to LOSE interest in you after a few dates? Here's why. (It's a surprisingly easy fix once you know the reason)

- and MUCH more...
